

RDA CR300 NA Turning Rolls 300 ton set capacity

Red-D-Arc's RDA CR300 NA turning roll sets feature all-fabricated-steel base construction with wheel brackets that can be manually positioned to accommodate vessels of varying diameters around a constant center-line. Vessel rotation is via a two-motor, two-wheel-drive system which eliminates the need for torque tubes. Drive motors are inverter-controlled variable-frequency AC-type with fan cooling and are fully enclosed for trouble-free operation. Double reduction worm and wheel gearboxes are used for enhanced durability and extended overhaul intervals. Drive and idler wheel shafts are housed in deep-groove-type roller bearings and gearboxes are of aluminum/bronze construction. Both the drive roll and idler roll have forklift slots built into the frames for easy maneuverability. Control boxes have IP65-rated enclosures and utilize variable-frequency AC-control electrical systems with full UL and CE certification. In addition, all our conventional turning rolls have been tested and certified by UL to establish safe working loads - a first in the weld automation industry.

Specifications

Model RDA CR300 NA turning roll set (drive and idler)

Load Carrying Capacity, Drive 150 ton maximum Load Carrying Capacity, Idler 150 ton maximum Load Carrying Capacity, Set 300 ton maximum Rotation Capacity, Drive Roll 300 ton maximum

Wheel Centre Distance 42.9, 74.4, 105.9, 137.4 in (1090, 1890, 2690, 3490 mm)

Vessel Diameter Capacity 31.5 in to 295.3 in (800 mm to 7500 mm) **Rotation Speed Range** 3.9 to 39.4 in/min (100 to 1000 mm/min) Tire Type Polyurethane, A95 durometer rating

Wheel Size 34 in diameter x 16 in wide

Five Function Control Push Button Pendant, 100 ft cable (forward/stop/reverse/speed control/emergency stop)

Optional Rotation Speed Foot Control FT-1VAR-100 (single pedal) with 100 ft control cable Optional Directional Foot Control FT-2DIR-100 (double pedal) with 100 ft control cable

Rotation Drive Motors 2 x 5.5 kW with fan cooling

380 to 480 V, 3 phase, 50/60 Hz (optional 600 V, 3 phase 60 Hz available) **Primary Input Power**

Input Current at Rated Load

Weight, Drive 13,779 lb (6250 kg) Weight, Idler 9921 lb (4500 kg)

Control Box Ingress Protection Rating IP65 Control Box Electrical Certification UL508 **Loading Capacity Certification** UL2011

Red-D-Arc Welderentals, an Airgas company, rents and sells welding and weld-positioning equipment - around the world.
